## How have you done in the past 10 years?

# What is the Your Method

Plan: Create a trading plan that starts with simple questions

Screen: How are you going to find your investments or trades?

Analyze: How will you assess each potential opportunity?

Execute: How much are you risking?

Monitor: How engaged do you want to be?

# Plan

Create a trading plan that starts with simple questions

- What are your objectives or goals?
- Are you going to invest or trade?
- How are you going to manage your investment/trade risk?
- What are you going to invest/trade?
- How are you going to make those investment/trade decisions?
- What are your rules for investing or trading?

# Screen

How are you going to find your investments or trades?

Which tools or searches are you going to use

Where will you find your potential investments or trades?

What criteria will you use in your search parameters?

# Analyze

How will you assess each potential opportunity?

Which indicators will you use?

Will you use fundamental or technical indicators?

What is your entry or exit signal?

# Execute

How much are you risking?

What is your reward potential?

How will you enter or exit?

Which order types will you use?

# Monitor

How engaged do you want to be?

How much time do you have to dedicate to monitoring the market?

What is your routine?

Which tools will you use to manage your investments or trades?

# Our Promise to Investors
