

Bicycle Routes and System

Map 7 shows the official bicycle routes within the neighborhood. The bicycle routes are located on Milwaukee Street (a portion of) and Swanton Road. Bicycling is prohibited on the streets surrounding the neighborhood: Highway 51 (Stoughton Road), Highway 30 (Commercial Avenue), and I90 system. Constructing a series of new paths to connect the neighborhood is desired. A bicycle path on the east side of Highway 51 (Stoughton Road), a bicycle bridge over Highway 30, a path along the drainageway ditch from Honeysuckle Park to Hiestand Park, and a path through Hiestand Park would improve the bicycling amenities within the neighborhood.

Designing a pedestrian/bicycle overpass over Highway 30 will help connect the neighborhood to commercial areas lying to the north.

Proposed bicycle paths (dark lines) through Hiestand Park and across Highway 30 (Commercial Avenue).
