

Wisconsin Socialists Condemn Bombing

The Wisconsin Socialist Party has endorsed a statement of the Watertown Area Peace Action Committee which "strongly condemns" the bombing of the Army Math Research Center at the University of Wisconsin.

The statement asks students to "take the lead in ostracizing and opposing the demented advocates of violence. Peace partisans should not provide the slightest excuse for diverting attention from the major crime today — the war in Indochina.

"We likewise ask the supporters of the Nixon-Johnson war to have the decency to refrain from any hypocritical dismay over the Madison bombing, as long as they accept without protest the much greater amount of death and destruction caused by American actions abroad."
